

## PUZZLE OF THE WEEK

Monday 23 November 2026 · Kakuro · Easy

### HOW TO PLAY

Squirrels hide acorns in the hollows. Each sign tells how many acorns are in the run of hollows to its right or below it. A run is the unbroken line of hollows that follows a sign and ends at the next trunk or at the edge of the wood.

Every hollow holds 1 to 9 acorns, and no number repeats within a run. Every hollow belongs to one run across and one run down at the same time, so the number you write has to suit both.

Exactly one filling fits every sign.

*Exactly one solution, found by the program that made this puzzle.*
