

PUZZLE OF THE WEEK

HOW TO PLAY

Squirrels hide acorns in the hollows. Each sign tells how many acorns are in the run of hollows to its right or below it. A run is the unbroken line of hollows that follows a sign and ends at the next trunk or at the edge of the wood.

Every hollow holds 1 to 9 acorns, and no number repeats within a run. Every hollow belongs to one run across and one run down at the same time, so the number you write has to suit both.

Exactly one filling fits every sign.

Exactly one solution, found by the program that made this puzzle.
