

# Trees of the Forest

Find the ten names in the grid. They run across, down and diagonally, always forwards. Then colour the drawings.

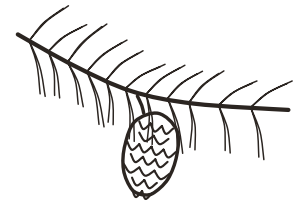

Oak

Birch

Beech

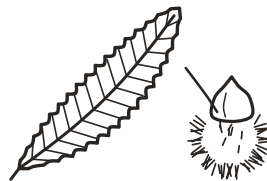

Pine

Willow

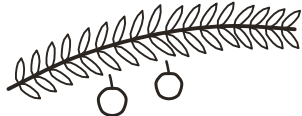

Maple

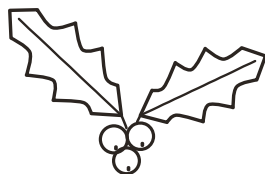

Sweet chestnut

Ash

Yew

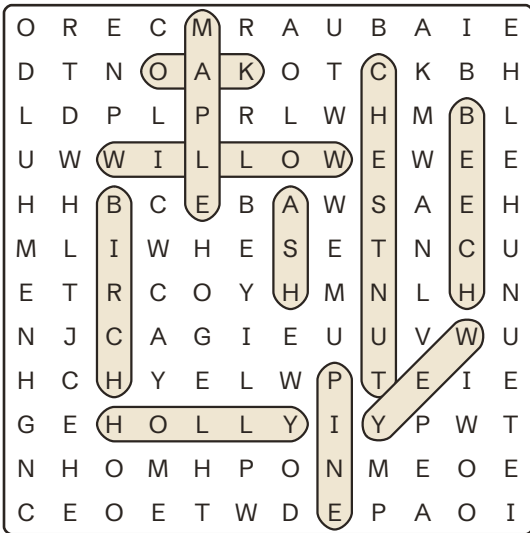

Holly

# Trees of the Forest: answers and facts

Each fact below is a sentence we wrote from the Wikipedia page named under it. All pages were read on 26 September 2026.

The drawings are drawn in code by ARLing, line by line, with no photographs and no AI generated images.

The coloured drawings show one way to colour them; any colours are fine.

## Oak

An oak's fruit is a nut called an acorn, which sits in a little cup.

[en.wikipedia.org/wiki/Oak](https://en.wikipedia.org/wiki/Oak)

## Birch

Birch bark often peels in thin papery plates; it was used for canoes and for ancient books in India.

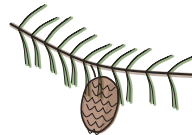

[en.wikipedia.org/wiki/Birch](https://en.wikipedia.org/wiki/Birch)

## Beech

Young beeches and clipped beech hedges often keep their dead leaves all winter, until spring.

[en.wikipedia.org/wiki/Fagus\\_sylvatica](https://en.wikipedia.org/wiki/Fagus_sylvatica)

## Pine

A pine in California known as Methuselah is around 4,800 years old.

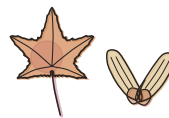

[en.wikipedia.org/wiki/Pine](https://en.wikipedia.org/wiki/Pine)

## Willow

Almost all willows take root readily, even from broken branches lying on the ground.

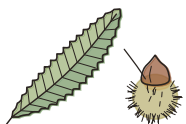

[en.wikipedia.org/wiki/Willow](https://en.wikipedia.org/wiki/Willow)

## Maple

Maple seeds come in winged pairs, shaped to spin as they fall and ride the wind.

[en.wikipedia.org/wiki/Maple](https://en.wikipedia.org/wiki/Maple)

## Sweet chestnut

Sweet chestnuts grow three to seven at a time inside a spiny case.

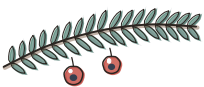

[en.wikipedia.org/wiki/Castanea\\_sativa](https://en.wikipedia.org/wiki/Castanea_sativa)

## Ash

Ash wood is tough and hard to split, the classic wood for tool handles and hurling sticks.

[en.wikipedia.org/wiki/Fraxinus\\_excelsior](https://en.wikipedia.org/wiki/Fraxinus_excelsior)

## Yew

Every part of the yew is poisonous except the red flesh around the seed.

[en.wikipedia.org/wiki/Taxus\\_baccata](https://en.wikipedia.org/wiki/Taxus_baccata)

## Holly

Only female holly trees bear berries, and they need a male tree nearby.

[en.wikipedia.org/wiki/Ilex\\_aquifolium](https://en.wikipedia.org/wiki/Ilex_aquifolium)
