Cranes

100 Hashi puzzles

Every puzzle has exactly one solution, and every one of them was checked by program before it was printed.

How to play Cranes

HASHI

- 1 Join the sandbanks with straight walkways. A walkway runs up and down or left and right, and only between two sandbanks that stand in line with nothing in between.
- 2 A number on a sandbank counts its walkways. When it says four, exactly four walkways leave it. Two walkways may run side by side between the same pair, and that counts as two.
- 3 Walkways never cross, and when the water is finished every sandbank can be reached from every other.
