How to play Squirrels

KAKURO

- 1 Squirrels hide acorns in the hollows. Each sign tells how many acorns are in the run of hollows to its right or below it. A run is the unbroken line of hollows that follows a sign and ends at the next trunk or at the edge of the wood.
- 2 Every hollow holds 1 to 9 acorns, and no number repeats within a run. Every hollow belongs to one run across and one run down at the same time, so the number you write has to suit both.
- 3 Exactly one filling fits every sign.
