Magpies Mixed September 2026

50 Nonograms puzzles

Every puzzle has exactly one solution, and every one of them was checked by program before it was printed.

How to play Magpies Mixed September 2026

NONOGRAMS

- 1 The numbers beside every row and above every column give the lengths of the blocks of filled cells, in order, with at least one empty cell between two blocks.
- 2 A filled cell is a cell a magpie left something shiny in. An empty cell is nothing. Work out from the numbers alone which is which.
- 3 Exactly one picture fits every number, and it can always be reached by reasoning, never by guessing. A cross is your own note that a cell stays empty.
